

The photo to the left shows Jose Rivas & Jan with Dominican men who both have LED lighting systems in their homes. They are very happy with the results.

The photo above shows one of the Add Your Light LED lamps being installed on a beam in the house. You can see that the wires are not yet connected.

The photo below shows installer, Ariel, on the left with some helpers holding various components of the LED system. The man on the right is the homeowner.

All the photos on this page are from the same house. The photo on the right shows the panel on the roof.
